PROFILE

Currently an engineering student (BSc equivalent), I am looking for a 4 to 5-month internship in software development starting in September 2026. Endowed with strong adaptability and rigor acquired through various technical projects, I wish to leverage my skills and discover the corporate world within a dynamic team.

SKILLS

System & Low-Level

C / C++ Unix / Linux Assembler
Shell Scripting Git GNS3

Application Development

Java C# (.NET) Python
SQL

Web & Mobile

HTML/CSS JavaScript Flutter
Kotlin SysML / UML LaTeX
Deployment (OVH)

EDUCATION

Computer Engineering Degree

EPITA

Class of 2028 Paris

- ACDC (Teaching Assistant) | Staff Com'
- Intensive Bootcamps: C, C++, Java, SQL.

International Semester

Univ. Polit cnica de Madrid

Jan.-June 2025 Madrid

- Mobile App Dev, Embedded Systems, Cybersecurity.

LANGUAGES

- French:** Native
- Spanish:** Native
- English:** B1
- Russian:** A1

INTERESTS

Mentoring: Private tutoring (Math/Programming).

Sports: Kickboxing/K1 (Junior French Champion 2023), Rugby, Weight training.

Science: Aerospace.

TECHNICAL PROJECTS

Driving Distraction Detection

Embedded Systems & C

Link

January - June 2025

- Design of a C-based embedded system analyzing driver attention.
- Real-time processing (< 50ms) and triggering of sensor-based safety alerts.
- Rigor:** Strict hardware interfacing and compliance with critical standards.

42sh (POSIX Shell)

C, Unix, System Architecture

Link

January 2026

- Complete re-implementation of a Bash Shell (AST, execution, signals).
- C development (15,000+ lines) and advanced process management.
- Teamwork:** Lead of 4 developers, code reviews, and Git versioning.

OCR & Word Search Solver

C, Neural Networks

Link

September - December 2024

- Creation of a character recognition engine (accuracy > 90%).
- Implementation of neural networks and image processing in C.
- Problem-Solving:** Mathematical optimization of algorithms.

EXPERIENCE

Teaching Assistant (ACDC)

EPITA - Teaching Assistants Assoc.

Since Sept. 2025

Paris

- Technical mentoring for 40+ students (C and Python projects).
- Code review and resolution of 100% of debugging blockers (GDB/Valgrind).
- Pedagogy:** Popularization of programming concepts.

Rugby Coach / Educator

EGG XV

2021 - 2025

Goussainville

- Planning and leading 2 weekly training sessions (30+ children).
- Development of game strategies and mental preparation for matches.
- Leadership:** Group dynamics management and sports values transmission.

IT Department Intern

EDF Nuclear

December 2020

Saint-Denis

- One-week immersion in a highly constrained industrial environment.
- Discovery of critical network infrastructures and IT systems (CNPE).
- Safety/Quality:** Strict application of procedural rigor.
