

LUCAS BERNARDEAU

Engineering Student (BSc Equivalent) - Looking for an Internship (4-5 months) - Sept. 2026

@ lucas.bernardeau@epita.fr Paris, France (Mobile) www.lucasbernardeau.fr lucas-bernardeau lucasbnrd05

PROFILE

Currently an engineering student (BSc equivalent), I am looking for a 4 to 5-month internship in software development starting in September 2026. Endowed with strong adaptability and rigor acquired through various technical projects, I wish to leverage my skills and discover the corporate world within a dynamic team.

SKILLS

System Low-Level

- C / C++
- Unix / Linux
- Assembler
- Shell Scripting
- Git
- GNS3

Application Development

- Java
- C# (.NET)
- Python
- SQL

Web Mobile

- HTML/CSS
- JavaScript
- Flutter
- Kotlin
- SysML / UML
- LaTeX
- Deployment (OVH)

Soft Skills

- Leadership
- Teamwork
- Mentoring
- Rigor
- Adaptability
- Autonomy

EDUCATION

Computer Engineering Degree

- EPITA
- Class of 2028
- Paris
- ACDC (Teaching Assistant) | Staff Com'
- Intensive Bootcamps: C, C++, Java, SQL.

International Semester

- Univ. Polit cnica de Madrid
- Jan. - June 2025
- Madrid
- Mobile App Dev, Embedded Systems.

LANGUAGES

- French: Native
- Spanish: Native
- English: B1
- Russian: A1

INTERESTS

- Combat Sports (Kickboxing/K1)
- Junior French Champion & Winner of the Junior French Cup (2023).

EXPERIENCE

Teaching Assistant (ACDC)

- EPITA - Teaching Assistants Assoc.
- Since Sept. 2025
- Paris
- Mentoring 1st-year students (C and Python projects).
- Mentoring, code review, and advanced debugging.

Rugby Coach / Educator

- EGG XV
- 2021 - 2025
- Goussainville
- Managing a youth group, planning training sessions.
- Developing leadership and responsibility skills.

IT Department Intern

- EDF Nuclear
- 2020
- Saint-Denis
- Discovery of critical industrial infrastructures.

TECHNICAL PROJECTS

Driving Distraction Detection

- Embedded Systems & C
- 2025
- Link
- Design of an embedded system analyzing driver attention.
- Real-time processing and triggering of safety alerts.

42sh (POSIX Shell)

- C, Unix, System Architecture
- 2026
- Link
- Complete re-implementation of a Bash-like Shell from scratch.
- Management of processes, signals, pipes, and parsing (AST).

Atelibox

- Fullstack Web (SaaS)
- 2025
- Link
- Functional SaaS app solving real-world logistics problems.
- Full management: Front, Back, DB, and Deployment.

OCR & Word Search Solver

- C, Neural Networks
- 2024
- Link
- Creation of an Optical Character Recognition (OCR) engine.
- Implementation of neural networks and image processing.
